

## **A message from our Careers Adviser, Julie Tipper**

Hi Everyone,

The school is closed but I'm still working and available to contact, no matter what year your daughter is in, there is something they can be thinking about in terms of their future:

### **Year 11**

The main focus in year 11 is the transition of your daughter from Batley Girls' High School to their preferred choice of either sixth form, college or apprenticeship. The vast majority Y11 of students are in touch with me via their school account, however, I will try to contact them all to ensure they have an offer of a college / sixth form place. I can also help them to manage their Get Into account. If they are seeking an Apprenticeship, I can help them search and apply for vacancies. I have links with the colleges and I will receive updates on their processes for recruitment, if interviews need rearranging for example I will be able to help.

### **Year 10**

I have already started guidance sessions with Y10, as many have been set a target of making a careers appointment. My intention is to contact all the Y10 students to discuss how they can plan for the decisions that they have to make in year 11. They can access their Unifrog Account for careers information, quizzes and subject ideas to help them with their decision making. They can also start to log activities that they have done such as attending the Careers Fair, visits, projects they have been involved with etc. (If they are unsure how to access this, they will find an email from Mr Cooper on their school account with log-on details). There are other useful links below.

### **Years 7/8/9**

This is the time to start thinking about what they are good at and what they enjoy and then how that can link to Jobs and Careers. They can access their Unifrog Account for careers information, quizzes and subject ideas to help them with their decision making. They can also start to log activities that they have done such as attending the Careers Fair, visits, projects they have been involved with etc. (If they are unsure how to access this, they will find an email from Mr Cooper on the school account with log-on details). There are other useful links below

### **6<sup>th</sup> Form**

I will still be working closely with those Y13 students who are looking for apprenticeships, sending regular vacancy updates and offering support with applications. All students are welcome to contact me if they need any help or advice.

There is further information in the Careers Section of the school website:
